Pallet Wrapz, Inc.
Matt Jacobs

Dear Matt,

We are so pleased with the Pallet Wrapz! We were using countless rolls of shrink film and risking our pallets of product from shifting and leaning on our warehouse shelves.

We were constantly packing and re-packing our product due to changes to the product itself and with each change the integrity of that pallet was compromised. Since we've implemented using the Pallet Wrapz for each of our Airside pallets, we no longer have to worry about product shifting or worse yet, a pallet tipping and causing serious injury to our employees.

We have captured a huge cost savings by eliminating the use of the shrink film and better yet, the transporting of our pallets to and from the airport, on and off our trucks and eventually on airport runways....can be handled smoothly and with confidence that it will arrive without fail. Thanks again for a great product. As our business expands our need will as well...watch for that next order!

Thanks so much!
