Chicago, Illinois - Quality Produce since 1912

Re: Pallet Wrapz Testimonial

As the owner of a produce distribution facility, pallet wrap is a staple product in the warehouse. Before switching over to Pallet Wrapz, we went through hundreds of rolls of plastic wrap a year. This was a significant expense and left us with tons of plastic waste.

Close to two years ago, Testa Produce, Inc. made the change from plastic wrap to Pallet Wrapz, and after seeing the benefits, we're sold. After utilizing Pallet Wrapz on a daily basis, my business productivity has significantly improved. We were able to drastically cut our expenses on plastic wrap, our waste has noticeably lessened, and pallet preparation time has decreased as well.

My company just moved into a new, entirely 'green' facility that was designed specifically to practice maximum sustainability. Pallet Wrapz are the most sustainable way to wrap my product on pallets. It is important for me to be able to reuse the Wrapz instead of purchasing, using, and then disposing plastic wrap. By using Pallet Wrapz I am able to help make my business as economically friendly as I possibly can while further emphasizing the importance of sustainability to my employees and customers.

The product is strong, durable, and I trust it to hold together my pallets when my drivers are making deliveries. Its lightweight design makes it very easy to carry and store. The convenience this product has brought to my business is immeasurable and I strongly suggest this product anyone that is looking for a cost effective solution to your pallet wrapping needs.
